

§ 101.67 License period.

Licenses for stations authorized under this part will be issued for a period not to exceed 10 years. Unless otherwise specified by the Commission, the expiration of regular licenses shall be on the date (month and day) selected by licensees in the year of expiration.

POLICIES GOVERNING MICROWAVE RELOCATION FROM THE 1850–1990 AND 2110–2200 MHz BANDS

§ 101.69 Transition of the 1850–1990 MHz, 2110–2150 MHz, and 2160–2200 MHz bands from the fixed microwave services to personal communications services and emerging technologies.

Fixed Microwave Services (FMS) frequencies in the 1850–1990 MHz, 2110–2150 MHz, and 2160–2200 MHz bands listed in §§101.147(c), (d) and (e) have been allocated for use by emerging technology (ET) services, including Personal Communications Services (PCS). The rules in this section provide for a transition period during which ET licensees may relocate existing FMS licensees using these frequencies to other media or other fixed channels, including those in other microwave bands.

(a) ET licensees may negotiate with FMS licensees authorized to use frequencies in the 1850–1990 MHz, 2110–2150 MHz, and 2160–2200 MHz bands, for the purpose of agreeing to terms under which the FMS licensees would:

(1) Relocate their operations to other fixed microwave bands or other media; or alternatively

(2) Accept a sharing arrangement with the ET licensee that may result in an otherwise impermissible level of interference to the FMS operations.

(b) Except as provided in paragraph (c) of this section, FMS operations in the 1850–1990 MHz, 2110–2150 MHz, and 2160–2200 MHz bands, with the exception of public safety facilities defined in §101.77, will continue to be co-primary with other users of this spectrum until two years after the FCC commences acceptance of applications for ET services (voluntary negotiation period), and until one year after an ET licensee initiates negotiations for relocation of the fixed microwave licens-

ee's operations (mandatory negotiation period). In the 1910–1930 MHz band allocated for unlicensed PCS, FMS operations will continue to be co-primary until one year after UTAM, Inc. initiates negotiations for relocation of the fixed microwave licensee's operations. Except as provided in paragraph (c) of this section, public safety facilities defined in §101.77 will continue to be co-primary in these bands until three years after the Commission commences acceptance of applications for an emerging technology service (voluntary negotiation period), and until two years after an emerging technology service licensee or an emerging technology unlicensed equipment supplier or representative initiates negotiations for relocation of the fixed microwave licensee's operations (mandatory negotiation period). If no agreement is reached during either the voluntary or mandatory negotiation periods, an ET licensee may initiate involuntary relocation procedures. Under involuntary relocation, the incumbent is required to relocate, provided that the ET licensee meets the conditions of §101.75.

(c) Voluntary and mandatory negotiation periods for PCS C, D, E, and F blocks are defined as follows:

(1) Non-public safety incumbents will have a one-year voluntary negotiation period and a one-year mandatory negotiation period; and

(2) Public safety incumbents will have a three-year voluntary negotiation period and a two-year mandatory negotiation period.

(d) Relocation of FMS licensees in the 2165–2200 MHz band by Mobile-Satellite Service (MSS) licensees will be subject to mandatory negotiations only. Mandatory negotiation periods are defined as follows:

(1) Non-public safety incumbents will have a two-year mandatory negotiation period; and

(2) Public safety incumbents will have a three-year mandatory negotiation period.
